Then we continue to the three pyramids of Dahshur – the Black, Bent and Red – Kriszta calls them the Moon Pyramids, as she feels they are connected to the phases of Womanhood (Crone, Mother/Lover, Maiden). They are a strong place to connect to the energies of true Sisterhood and the Feminine and Masculine working in complete harmony. According to the official theory the two temples of Abu Simbel are the mortuary temples of Ramses II and His Great Queen, Nefertari. In Kriszta’s Soul-knowledge the Nefertari Temple was the mystery school of Hathor, where the priestesses of Hathor were trained and where the Queen was initiated. The Ramses Temple was a place of healing, where the priestesses of Hathor lead the wounded – energetically or physically - men back to the fullness of their Soul. The Nubians call these temples Nubian temples, and it was a sacred place and mystery school of Hathor since ancient times, long before the rule of Ramses II.
